

SECURITY

We help you prosper.

INTRODUCTION

VOX provides enterprise security consulting and solutions that compliment each of our technology practice areas: Contact Center, Collaboration and Network. The majority of our engagements enable clients to:

- 1) Improve Security Posture
- 2) Reduce Threat Risk
- 3) Maintain Compliance Integrity

A COMPREHENSIVE APPROACH

Business leaders and executives are overwhelmed by the vast number of solutions in the marketplace claiming to be the answer for cybersecurity. What you are truly looking for is to reduce organizational risk, protect shareholders and stay out of the media. Through our comprehensive approach and methodology, Executive Threat Strategy (ETS), you will be armed with a comprehensive solution to understand your organization's vulnerabilities and potential threats, as well as the solutions and services available to reduce your risk.

EXECUTIVE THREAT STRATEGY

COMPREHENSIVE SECURITY

Executive Threat Strategy (ETS) provides a new perspective on security. Rather than a narrow, myopic view of cyber security, ETS takes aim at the entire organization.

We take a holistic approach to security and understanding your business which includes People, Process, Facilities and Technology.
